TEACHING POSITION AVAILABLE – 18/19
BIOL 307/3.0* - Environmental Change in Lake Ecosystems
Department of Biology
Queen’s University, Kingston, ON CAN K7L 3J9

The Department of Biology at Queen’s University invites applications from suitably qualified candidates interested in teaching a course in Environmental Change in Lake Ecosystems (BIOL 307/3.0). This course is part of the Ontario Universities Program in Field Biology (full description of this module can be found at: http://www.oupfb.ca/2018_modules/module29.pdf). This is a field course offered at the Queen’s University Biology Station (QUBS), with a maximum enrolment of 12 students. Candidates should have a Ph.D., and teaching experience at the University level in Biology. This is an intensive field course that will occur from Sunday Aug. 19th, to Saturday September 1st.

The University invites applications from all qualified individuals. Queen’s is committed to employment equity and diversity in the workplace and welcomes applications from women, visible minorities, Aboriginal peoples, persons with disabilities, and LGBTQ persons. All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.

The University will provide support in its recruitment processes to applicants with disabilities, including accommodation that takes into account an applicant’s accessibility needs. If you require accommodation during this process, please contact: Biology Department, Dr. Brian Cumming, Head, cummingb@queensu.ca, 613-533-6132.

The academic staff at Queen’s University are governed by the Collective Agreement between the Queen’s University Faculty Association (QUFA) and the University, which is posted at http://www.queensu.ca/facultyrelations/faculty-librarians-and-archivists/queens-qufa-collective-agreement.

To comply with Federal laws, the University is obliged to gather statistical information about how many applicants for each job vacancy are Canadian citizens / permanent residents of Canada. Applicants need not identify their country of origin or citizenship, however, all applications must include one of the following statements: “I am a Canadian citizen / permanent resident of Canada”; OR, “I am not a Canadian citizen / permanent resident of Canada”. Applications that do not include this information will be deemed incomplete.

Applications should include a complete and current curriculum vitae, letters of reference from two (2) referees, and any other relevant materials the candidate wishes to submit for consideration such as a letter of intent, teaching dossier, etc. Please arrange to have applications and supporting letters sent directly to:

Dr. Brian Cumming, Head
Department of Biology
Queen’s University
Kingston Ontario Canada K7L 3J9

Applications will be received until May 11th, 2018. Review of applications will commence shortly thereafter, and the final appointment is subject to budgetary approval. Additional information about the Department of Biology can be found at http://biology.queensu.ca.

Course Description:
BIOL 307/3.0 Two weeks of field work plus written assignments in one or two areas of study to be done when specialized modules are available in May, July, August or February. Studies may include ecology of birds, fish, insects, small mammals, plants, tundra and taiga, lakes and caves. For specific information on this module please see: http://www.oupfb.ca/2018_modules/module29.pdf
