

Undergraduate Newsletter
Department of Biology
May - June 2024 Issue

Now that exams are almost over it is time to relax a little and start thinking about course registration for 2024-25. Over the next month we will work on updating our course offering web page, but unfortunately, we cannot yet give you a heads up on the scheduling of any of our 2024-25 BIOL offerings until the official timetable is released in June. We are available year-round except for vacation leave. Normally we close for a week or two August (Arts and Science Registration Hiatus period), we will include the dates in the next newsletter. Below is what we know now, we will do our best to keep you up to date. Please have fun and stay safe!

*Celebrate [Shannon Marginson](#) as she receives the **Janet Bilton-Holst Citation** in recognition of her positive contribution to the **Ban Righ Centre**! Shannon will be honoured at the Spring Awards Celebration on April 27th.*

*[Queen's student named McCall MacBain Scholar](#)
Siena Margorian is one of **20** Canadian students who have been selected to pursue a fully funded master's degree at McGill University.*

BIOL 404 - Summer 2024

BIOL 404: April 29th to May 10th (the last date to add/drop the course is April 29th at mid-night)
Course details can be found @ <https://biology.queensu.ca/current-students/undergraduate-students/courses/biol-404>

BIOL 404: Techniques in Molecular Biology (Units: 3.00)

Intensive laboratory work (8h/day) to be carried out over two and a half weeks in May. Practical work includes DNA isolations, DNA cloning, PCR, production of proteins, biochemical and immunological analysis of proteins.

BIOL 418 - Summer 2024

BIOL 418: May 6th to May 17th (the last date to add/drop the course is May 6th at mid-night)

BIOL 418: Fisheries Techniques (Units: 3.00)

This course will introduce students to many "hands-on" techniques currently used in fisheries. This will include fish identification, different capture techniques for fisheries assessment, bioacoustics, environmental monitoring, techniques for ageing fish, diet analysis, fish tracking (biotelemetry approaches), and data management.

BIOL 5XX – Advanced Honours Seminars

The BIOL 5xx Advanced Honours Seminars Application for the 2024-25 academic year and can be found @ <https://biology.queensu.ca/academics/undergraduate/courses/advanced-honours-seminars/>. Application deadline: **May 10, 2024**

BIOL 537 – Honours Thesis Course

Although the first deadline of March 18th has passed, you can still explore BIOL 537 opportunities until the last day to add in September 2024.

Plan Selection for 1st Year Students (2024)

The plan selection period will open on SOLUS from **May 27 to June 7, 2024**.

Check out the [Plan Selection](#) page for details and deadlines for selecting a degree plan for next year. Please do not hesitate to connect with us for further discussions.

Changes to Your Program, Plan or Certification

Sometimes life throws a curve ball, and you must adjust. The most important thing is to stay on track during your transition – this will help make sure you have a smooth transition. The [Change of Plan](#) period is May 27 - June 30, 2024.

Upcoming registration details and deadlines for all students

Course registration details and deadlines can be found at:

<https://www.queensu.ca/artsci/undergraduate/current-students/course-enrolment>

The **2024-25 Arts and Science Calendar** when ready will be available on the web at:

More Undergraduate Research Opportunities Through the Research Mentorship Courses BIOL538/539/540

Biology 538 (3.0), 539 (3.0) and 540 (6.0) offer individual students the opportunity to undertake a laboratory research practicum under the supervision of a biology faculty member. In addition to work in the host lab, students typically participate in specialized seminar series or lab-specific journal clubs and conduct research towards both a major paper and a seminar. These mentorships offer flexibility to accommodate both students and faculty. Further details are available @ [Research Mentorship - Queen's Biology Department \(queensu.ca\)](#)

Did you know? ... To encourage students to explore subject matter outside their program of study and to promote interdisciplinary study, all upper-year Arts and Science students will be permitted to designate up to 6.0 units of degree-credit courses for pass/fail grading, thereby minimizing any risk to the students' GPA. Such courses designated for pass/fail grading will be referred to as **Personal Interest Credits (PICs)**. <https://www.queensu.ca/artsci/students-at-queens/the-personal-interest-credit>

Wondering about how many courses you can take from other Faculties and Schools towards your degree plan/program?

A maximum of 6.0 units from courses offered by other Faculties and Schools may be counted towards the Program and/or Plan requirements of any degree in the Faculty of Arts and Science, in addition to any such courses allowed as either Core or Option course requirements.

All course codes listed in section 7 of the Academic Programs page are Faculty of Arts and Science courses. <https://www.queensu.ca/academic-calendar/arts-science/academic-programs/>

What is the "APR"?

The APR is the Academic Progress Report. It is a handy tool that reviews your degree requirements, track plan progression, and it tells you what you have satisfied and what you still need to complete for your core degree plan requirements. Click here to Run an APR:

<https://www.queensu.ca/artsci/undergrad-students/academic-requirements-reports-in-solus>.

Students are expected to run their APR both prior to and after registration. The APR will help to flag potential concerns with respect to your registration and degree requirements.

[Course Mapping Worksheet!](#) This worksheet will help you set up a detailed road map for your courses so you can stay on track to meet your degree requirements.

Need help with your studies?

Please visit Student Academic Success Services (SASS) at <http://sass.queensu.ca/>. SASS offers academic support to students who wish to develop their skills in critical thinking, reading, learning, studying, writing and self management.

Do you need to find a place to study on Campus?

Biology Degree Plans

Review your degree plan requirements and make sure you are selecting courses you need. Degree plan requirements can be found at: <http://www.queensu.ca/artsci>.

Biological Foundations List - IMPORTANT!

It is very important to keep this GPA requirement in mind throughout your program, starting with first year. To be admitted to 400 and 500 level Biology courses, you will need a minimum GPA of 2.0 in any previously taken courses from Biological Foundations list.

The Biological Foundations List is BIOL 102, 103, 200, 212, (201, 202), 205, 206, 300, 330, 334, 339, and 341 (302, 303).

To be admitted to BIOL 400 and 500 level Biology courses you will need a minimum cumulative GPA of 2.0 in any previously taken courses from this list.
